## SUMMARY

Cloud & DevOps Engineer with 4.5 years of experience engineering and operating enterprise applications on AWS and Kubernetes (EKS), delivering faster deployments, high availability, and optimized cloud costs across multiple environments.

## TECHNICAL EXPERIENCE

**Infosys** Feb 2025 – Present

### Cloud & DevOps Engineer

Noida , India

- Deployed and operated Java microservices on AWS **EKS** using **Kubernetes**, **Docker**, and **Helm**, integrating **Application Load Balancer** and **Auto Scaling Groups** to maintain **99.9%** uptime.
- Built CI/CD pipelines using **GitHub Actions** with **SonarQube** integration, reducing deployment time by **40%**.
- Automated **Linux** server operations using **Bash** for disk cleanup and log management, reducing manual intervention and production alerts.
- Provisioned AWS infrastructure with **Terraform** and automated **S3** and **EBS** snapshot cleanup using AWS **Lambda**, optimizing cloud costs.

### Tata Consultancy Services

Aug 2021 –Feb 2025

### Cloud & DevOps Engineer

Kolkata , India

- Implemented Infrastructure as Code (IaC) using **Terraform** to provision **AWS** infrastructure, reducing cloud resource usage by **25%** and operational costs by **18%**.
- Built CI/CD pipelines using **GitHub Actions** with **Robot Framework** integration, accelerating release cycles by **35%** and reducing deployment failures by **50%**.
- Deployed containerized applications using **Docker** and **Kubernetes** across multiple environments in **private cloud** infrastructure, maintaining **99.9%** application availability.
- Configured **Prometheus** and **Grafana** for monitoring and alerting on Kubernetes and EC2 workloads, reducing **incident resolution time** and enabling effective **root cause analysis (RCA)**.

## SKILLS

**Operating System:** Linux, Windows

**Programming Languages:** Python, Bash, Java

**Cloud & IaC:** AWS (EC2, S3, Lambda, EKS, CloudWatch,IAM,VPC), Terraform, CloudFormation

**DevOps Tools:** Git, GitHub Actions, Docker, Kubernetes, Helm, SonarQube, ArgoCD,Robot Framework, JFrog

## CERTIFICATIONS

- Microsoft Certified : Azure Fundamentals
- AWS Certified Cloud Practitioner
- Github Foundations
- Containers & Kubernetes Essentials

## ACHIEVEMENTS

- Migrated 19 on-premises applications to a private cloud infrastructure, ensuring stable production operations.
- Implemented a client-adopted ArgoCD proof of concept (POC) to enable GitOps-based Kubernetes deployments and improve CI/CD reliability.

## EDUCATION

**Netaji Subhash Engineering College , Kolkata**

B. Tech Electronics and Communications Engineering

**GPA: 8.41**

May 2017 – Jun 2021
